KILI CAFFE

ITALY 

Location: Sicily, Enna

Established: 1979

Kili Caffe is a gourmet type coffee which serves to pamper coffee lovers. This authentic Italian coffee range promises a unique balance of blends and experience which are sure to satisfy coffee connoisseurs!

How Kili got its name:

Mount Kilimanjaro is the highest and most fascinating volcano in Africa, situated between Tanzania and Kenya in the heart of Black Africa. Arabica shrubs that are cultivated in the upland plain of Kilimanjaro produce excellent coffee beans thanks to the combination of favourable climate and suitable geographical and geological conditions, while Robusta coffee is grown in the valleys. The fascination of Black Africa and Kilimanjaro inspired the logo and name of the company, KILI CAFFE'.

FONTE CORTE PARADISO

ITALY 

After an underground journey that begins at the foot of the Italian Carnic Pre-Alps, Paradiso mineral water emerges naturally at the premises in Paradiso di Pocenia (Udine-Italy), a pure mineral water rich in elements that make it healthy and beneficial for the body.

The sources within the estate are all protected from contaminants through layers of clay 70 meters thick, this profile of geological subsurface protects the waters from pollution. The waters are rich in calcium and magnesium thanks to the calcite and dolomite rocks they flow through.
